

Front Foot: The Law That Changed Cricket

By Gideon Haigh

Cricket is a game of tradition and innovation, and the front foot law is one of the most important changes to the game in its long history. Before the law was introduced in 1935, batsmen were allowed to bowl the ball from any position, including behind the wicket. This led to some dangerous and unfair play, as bowlers would often bowl the ball at the batsman's head or body.
